Baby Dry Wipes

Just Add Water

Add water or own solution, cleanse, and toss.

No Additives

Perfect for baby's sensitive skin.

Gentle on Skin

Softer than reusable cloths.

Do Not Flush

Simply toss them in the trash.

Why do we choose dry cotton wipes:

- **Dry cotton wipes:**
Soft and delicate, good water absorption, good wiping, natural degradation. It is a new environmentally friendly alternative to paper towels, cotton pads, face washes and other products.
- **Soft and less friction:**
Repeated wiping does not hurt the skin, the baby is far from the red butt.
- **Multi-application:**
Clean the face, facial cotton tissue cotton soft towel has good flexibility, can be used as a wet wipes or a small towel. Cut small pieces when the use of cotton pads, you can cut dry cotton wipes into small pieces used as a cotton pad.
- Clean the nipple, wet cotton wipes, used to clean the nipple, regular nipple cleaning can reduce nipple rupture during lactation.

Tips:

- Do not throw it into the toilet to avoid blockage.
- Store in a cool place to avoid high temperatures and direct sunlight.
- Do not approach the fire to avoid accidents.

- No stimulus, mild, alcohol-free

Bamboo Baby Wipes

Why Bamboo?

Soft on You ... Easy on the Earth!

•Soft and Comfortable

Softer than the softest cotton, the fabric has a natural sheen to the surface and feels similar to cashmere. Our fabric absorbs water 3-4 times better than cotton, keeping skin comfortable, rather than sticky, in hot weather. The fabrics made by us stay cooler in hot temperatures and warmer in cold temperatures.

•Protective and Hygienic

The fabrics also have natural UV protection. In April of 2005, we sent out our Purely Natural 100% bamboo jersey to the Suncare Research Laboratories in Winston Salem, N.C. for UV Protection testing. The UPF label rate is 15. The fabric scored 18.3 on the UPF scale with 94.15% UVA block and 93.17% UVB block.

•Sustainable and Organically Grown

Bamboo, a renewable resource, is grown without using pesticides or chemical fertilizers. We choose to not use any bleach on our fabrics before dye. We offer many Purely Natural products without any dye at all.

Bamboo is one of the world's most prolific and fastest-growing plants, and is able to reach maturity in about four years, compared to the typical 25 to 70 years for commercial tree species in the U.S.

Bamboo is nature's most sustainable resource and is naturally regenerative. Bamboo is actually a tropical grass, with an extensive root system that sends out an average of four to six new shoots per year, naturally replenishing itself and growing to heights of 60 feet or more. Some bamboo species grow up to 4 feet per day and can be harvested every 3 to 4 years.

Biodegradable Baby Wipes

ACHIEVE A CLEANER LIFESTYLE

Cleaning requires water most of the time — our wipe doesn't. Made convenient, effective, & safe for daily use, our wide range of wet wipes is made to make almost anything squeaky clean with one quick wipe!

- PH value close to baby's skin
- Clean, Nourish Further
- Hypoallergenic baby wipes made of 100% plant fiber, these eco friendly wipes can be totally degraded to do no harm to the environment.
- Thicker and More Textured
- One Draw One Time, No stuck, no adhesion, our scented baby wipes adopt a special crossed lapping method to allow for smooth drawing even with one hand, a real new parents' hack when nursing or holding the baby.

ALL-NATURAL & EARTH-CONSCIOUS

Our wipes are made of 100% plant-based fibers with pure plant-powers & clean ingredients that are earth-conscious, gentle on the skin, & tough on dirt.

Pacifier Wipes

Baby-safe cleaning comes naturally

- Pacifier Wipes can give you much-needed peace of mind, especially when you're out and about with baby.
- Made with 100% food-grade ingredients, this handy pack of 36 wipes cleans pacifiers, bottles, nipples, cups, utensils and teething toys using the safe and natural power of baking soda.
- These alcohol-free wipes measure 4" x 6" and are perfect for on-the-go use.
- Throw them into your diaper bag for those inevitable moments when you or baby will drop the last clean bottle or pacifier onto a dirty public floor.
- Pacifier Wipes safely clean pacifiers, bottles, cups and teething toys, so you'll always have plenty on hand.
- They're alcohol and chemical free, made with 100% food-grade ingredients.
- Perfect for the diaper bag or nursery, the wipes are a quick solution for keeping pacifiers and toys clean, eliminating worry about germs that baby could pick up.

Tips for Using a Pacifier Safely

- Check for cracks or tears before giving the pacifier to your baby.
- Don't give your baby their pacifier immediately after giving them medicine, as some medicines can cause the pacifier to break down.
- Replace your baby's pacifiers every two months.
- Don't dip the pacifier in sugar or honey, as this is bad for your baby's teeth and young children who ingest honey may be at risk for botulism.
- Do not tie a pacifier around your baby's neck.
- Do not use a homemade pacifier.
- Don't let your baby chew on the pacifier, as this makes it a choking hazard.
