Eco Friendly White Towels

Save the Environment

Our salon towels are made from certified renewable sources of wood fibre - usually spruce or pine. The trees are grown in regenerated forests that are constantly renewed so forests continue to exist. The towels are decomposed by naturally occurring micro-organisms into co2 and water. Replacing cotton towels with salon towels means no laundry, no chemicals contaminating the environment, no excess water usage. Here is an ingenious option for businesses seeking sustainability.

Save Time

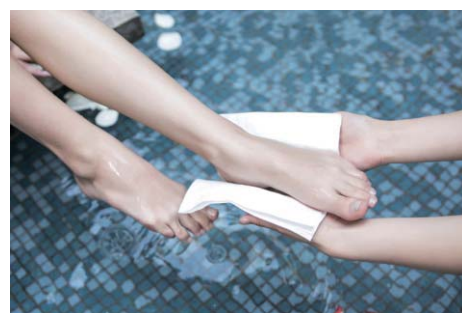

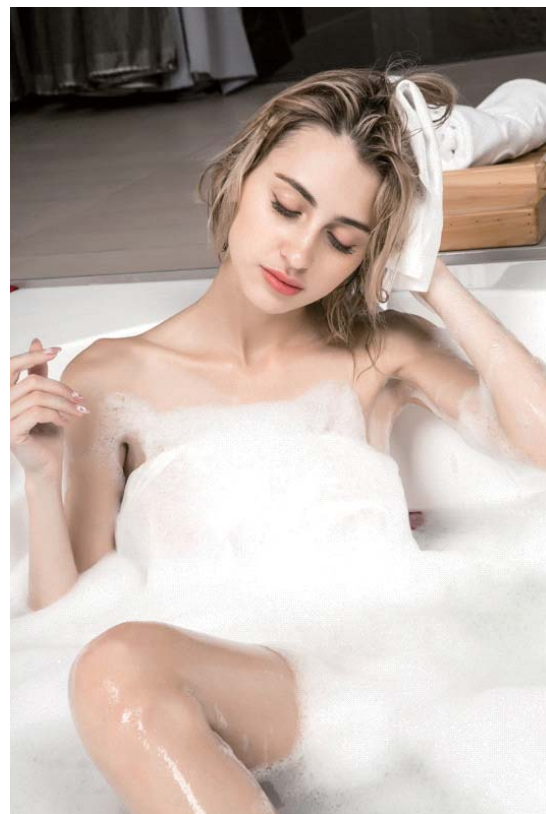

Our salon towels are ten times more absorbent than cotton towels. The super absorbency will aid in reducing blow-drying time by up to 40%. Salons report a saving of up to 6-7 hours on laundry time weekly. These towels will also reduce your storage problems.

Hygienic and Germ Free

Poor laundry practices encourage bacteria build-up and odour in regular towels. Using eco friendly towels, offers a clean, fresh, sanitised towel for each client, eliminating the risk of cross infection and giving you peace of mind.

Available Material:

- common spunlace
- bamboo spunlace
- woodpulp spunlace

Bamboo Towels

Why Bamboo?

Soft on You ... Easy on the Earth!

•Soft and Comfortable

Softer than the softest cotton, the fabric has a natural sheen to the surface and feels similar to cashmere. Our fabric absorbs water 3-4 times better than cotton, keeping skin comfortable, rather than sticky, in hot weather. The fabrics made by us stay cooler in hot temperatures and warmer in cold temperatures.

•Protective and Hygienic

The apparel is thermal regulating, odor resistant, anti-static and will keep you cooler and drier in the heat of summer ... and warmer in cold temperatures.

The fabrics also have natural UV protection. In April of 2005, we sent out our Purely Natural 100% bamboo jersey to the Suncare Research Laboratories in Winston Salem, N.C. for UV Protection testing. The UPF label rate is 15. The fabric scored 18.3 on the UPF scale with 94.15% UVA block and 93.17% UVB block.

•Sustainable and Organically Grown

Bamboo, a renewable resource, is grown without using pesticides or chemical fertilizers. We choose to not use any bleach on our fabrics before dye. We offer many Purely Natural products without any dye at all.

Bamboo is one of the world's most prolific and fastest-growing plants, and is able to reach maturity in about four years, compared to the typical 25 to 70 years for commercial tree species in the U.S.

Non-woven Waxing Strips

- 3" x 40 yards
- Cut to any size desired

Nonwoven waxing strip

Ref No.	Size	Packing
MR1540	3"x 40 yards	1 roll

How to use?

Step 1: Keep the skin clean before waxing (you can use Pre-wax to easy cleaning your skin perfectly)

Step 2: Remember the direction of the hair growth.

Step 3: Rub the wax strip by hands for 30 seconds, then peel the two strips apart, apply one of them to the area where you want to remove hair.

Step 4: Firmly smooth it in the same direction as hair growth, for approximately 10 seconds, ensuring strip is securely fixed to skin.

Step 5: Holding the skin taut to avoid discomfort, immediately pull the strip back on itself against the direction your hair growth, keep the strip as close to the skin as possible.

Step 6: Remove excess wax on skin with either a clean cotton wool pad or tissue. DO NOT use soap, or alcohol to clean skin after waxing. We suggest to moistened with after wax to protect your skin.

Cotton Cosmetic Pads

Cotton cosmetic pads are often hypoallergenic, as well as ultra-soft, lint-free and quilted for strength and durability. Therefore, they are made especially for both the application of toners, astringents and lotion, and the removal of nail polish, eye makeup, lipstick and foundation. Some brands also offer exfoliating cotton rounds, which maintain a micro-head exfoliating surface for extra deep cleansing, in addition to the same application and removal uses as standard cotton rounds.

- optimal balance of strength
- 100% pure cotton
- Soft and Absorbent
- apply cleansers, lotions and astringents
- remove make-up and nail polish

Perfect for gentle, effective removal of eye makeup and other cosmetics
 Luxuriously soft 100% cotton; hypoallergenic
 Dual-sided: soft, embossed side for gentle cleansing, smooth side for applying lotions and astringents
 Stitched edge ensures a durable, plush pad that won't leave pieces behind

Cotton Balls

Ref No.	Size	Packing
MR2502O	0.8g/pc	100pcs/pack

The 100% Organic Cotton Balls are Eco-Friendly and entirely Biodegradable because they're made with non-chlorine bleached pure organic cotton as opposed to most other brands which use a blend of synthetic fibers "Rayon" bleached with chlorine. They're Hypoallergenic too, so don't worry about using them on sensitive skin. Make and Feel the Difference with Maxim Organic Cotton Balls!"

In addition, our cotton is whitened and disinfected with Hydrogen Peroxide instead of Chlorine to avoid exposure to harmful chemical Dioxin residues.

All of these qualities combined, make our Organic Cotton Balls Hypoallergenic. Additional product features include a re-sealable zip-Locked closure for convenient and safe keeping.

MR110A2	15x20cm	25pcs/bag

Gentle and Effective Cleansing Formula

Remove makeup and other impurities for all skin types with Cleansing Facial Wipes' deep-down cleansing formula. The wipes won't leave residue, and can even clear away waterproof mascara so your face is completely clean. The Facial Wipes are tough on dirt but don't strip away hydration, so your skin stays balanced.

Made for All Skin Types

The combination of skin-loving ingredients and vitamins in Facial Cleansing Wipes works to clean and refresh your skin, for a hydrated and rejuvenated complexion. All wipes are hypoallergenic and alcohol free. They remove dirt, oil, and makeup. Even sensitive skin can benefit from the wipes because they are free of dyes, artificial perfumes, and harsh chemicals that can cause irritation.

Ready When You Need Them

The Cleansing Facial Wipes travel whenever and wherever you need them. The wipes are perfect for when you're on-the-go, so stow a pack in your bag, a desk drawer at work, or anywhere that's convenient for you. Then, whenever your face needs a bit of refreshing and gentle cleansing, you can just reach for a wipe.

Refresh and Instantly Hydrate with Triple-Purified Water

This products use water that's been through a multi-step purification process to nourish and instantly hydrate your skin. The triple-purified water reduces possible skin irritation caused by artificial colors and perfumes as well as other particles and contaminants. Plus, the water is enriched with healthy multivitamins to help improve your skin.

Makeup Remover Wipes

These convenient, premoistened oil free wipes instantly dissolve all traces of dirt, oil and makeup deep down to the pores. They even remove waterproof mascara. In one easy step, your skin is left perfectly clean and refreshed with no oily residue, so there's no need to rinse. Large enough to use on entire face. Gentle enough for use around the sensitive eye area.

Nail Polish Remover Pads

The Nail Polish Remover Pads offer a handy way to quickly remove polish and condition nails and cuticles in one easy step. Our patented formula is specially designed to remove polish faster than any other brand, and features an exclusive combination of ingredients that will help strengthen and nourish your nails while moisturizing and softening your cuticles at the same time.

Each felt pad is saturated with your choice of the best non-acetone nail polish remover or acetone nail polish remover available. A single pad removes polish from ten nails, fingers or toes—even dark and hard-to-remove colors.

The Nail Polish Remover Pads are available in boxes of ten or three individually wrapped pads. They're perfect for travel, too. Get them in regular formula for natural nails or non-acetone formula for both natural and artificial nails. Also available in advanced formula, which combines botanical oils with Cutex's patented remover formula that strengthens and nourishes nails after just one use.

Facial Mask

A facial mask takes place after cleansing, skin analysis, exfoliation, extractions and massage during a professional facial. Facial masks treat your particular skin type or condition.

For instance, if you're dry or dehydrated, the facial mask should hydrate your skin. If your skin is red or inflamed, the mask should calm and soothe. If your skin is oily and congested, the facial mask can help draw out impurities from the skin.

Facial masks generally stay on your skin for 10-15 minutes and contain ingredients like clay, black moor mud, aloe vera, seaweed, algae, essential oils, massage oils, herbs and vitamins.

One sign of a good facial is when the esthetician stays in the room with you during the facial mask, giving you a scalp massage or some other service that enhances your experience. If she says, "You lie here and relax and I'll be back", she's basically taking a break at your expense. Don't pay good money to lay there by yourself.

After the mask has done its work, the esthetician removes it and completes the facial with application of toner, serum, moisturizer, eye cream, lip balm and if it's day-time, sunscreen.

A face mask is intended to treat your particular skin condition so it's important to choose the right one. If you're using a professional skin care line, the esthetician can usually recommend a facial mask for you to use at home, but sometimes they are for professional use only.

- Specially formulated cosmetics to penetrate active ingredients into the skin
- it will make your skin look younger, moisturized, elastic, bright and relieve you from stress
- Power relaxation skin with Moisturing treatment
- For professional spa treatment at home

Directions

- Wash face and apply toner.
- Remove mask sheet from package and unfold.
- Carefully fit mask over face.
- Remove mask sheet after 15-20 minutes.
- Gently pat any remaining formula into skin.
- Use 2-3 times a week for best results.

The Pop-up foil sheet has gradually become the new favorite of the hairdressing industry in the world for its convenience and swiftness. thus winning the hearts of an increasing number of consumer. with it we can decline the tedious operation of hairdressing foil rolls. It can be used simply by being drawn out just like a piece of tissue. In today when high efficiency is pursued by everybody, you have no reason to refuse it.

the production technique of hairdressing foil sheets includes coloring, embossing and printing, etc., and we can provide personalized and customized service as per the use requirement of clients, regardless of thickness, width, length and individual printing.

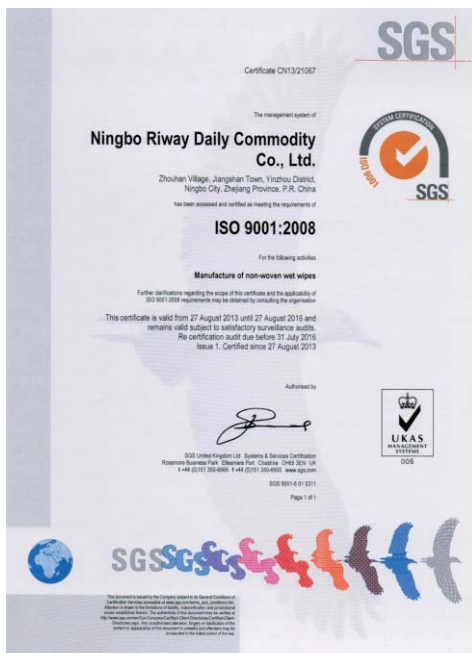

Just like pop-up foil shee, pre-cut, pre-folded hairdressing foil sheet also has the feature of high efficiency and swiftness. Matched with different embossing and printing. It will give you an unprecedented use experience. We are confident that it will not disappoint you.
